

# Dominion Voting Systems - Software problems

We need a court order instructing every county that used Dominion election software to undergo a forensic audit immediately. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

Dominion Voting Systems, which claims to work with 1300 voting jurisdictions including nine of the 20 largest counties in the nation, produced the software used in Michigan that erroneously gave Democratic candidate Joe Biden a 3,000 vote advantage in Antrim County. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

A technology glitch that created voting problems in two Georgia counties on Tuesday morning was caused by a vendor uploading an update to election equipment the night before, a county election supervisor said. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

The voting and tabulation machines made by Dominion Voting Systems are causing problems and raising doubts about the accuracy of 2020 election results in at least two key swing states, Michigan and Georgia, according to multiple reports. [*SOURCE: [DOMINION: The 'Glitchy' Voting System That's Causing...](#)*]

Gosar's call to action follows reports of a significant glitch in a Michigan county, which used the same software. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

On Election Day, Gwinnett County discovered a "problem with about half the batches of absentee by mail ballots," according to a statement on the county's website. [...] The county said the problem affected approximately 3,200 batches containing up to 25 ballots each, which equals a maximum of 80,000 ballots. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

Poll workers gave voters paper ballots until a workaround allowed the use of voting machines to resume. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

Other key battleground states, including Georgia, have used this software, Dominion Voting Systems, and have experienced issues. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

The same company that reported glitches with software updates in contested polling locations in Georgia is also behind the software glitch that seemingly reversed 5,500 votes in a county in Michigan. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

Since then, we have now discovered that 47 counties used this same software in the same capacity,” she continued. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

And now it’s been reported by Politico that Dominion’s voting systems used in the state of Georgia, a state that has not finished counting and currently has Biden with a lead of just under 8,000 votes, had a ‘glitch’ that stopped voting in both Morgan and Spaulding Counties – caused by a software update that was uploaded to voting machines the day before the election. [*SOURCE: [DOMINION: The ‘Glitchy’ Voting System That’s Causing...](#)*]

Workers at the Gwinnett County Voter Registration and Elections Headquarters, Friday, Nov. 6, 2020, in Lawrenceville, near Atlanta. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

The counties use voting machines made by Dominion Voting Systems, but the electronic poll books that experienced the glitch were made by KnowInk, a subcontractor to Dominion. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

Dominion Voting Systems said its software is not to blame for the ballot processing errors afflicting Gwinnett County, Georgia. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

The problem initially prevented voters from casting machine ballots on Election Day in Morgan and Spaulding counties after the devices used to sign in voters at the polls failed to work, county officials said. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

This glitch, in Antrim County, which officials caught on Wednesday, caused 6,000 ballots that were supposed to go to Republicans to instead go to Democrats. [...] If all this wasn’t enough, in Antrim County, ballots were counted for Democrats that were meant for Republicans, causing a 6,000 vote swing against our candidates,” Michigan Republican Party chairwoman Laura Cox said in a Friday presser. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

Ridley said that a representative from the two companies called her office after poll workers began having problems with the equipment Tuesday morning. [SOURCE: [Georgia election official: Machine glitch caused by last...](#)]

A Georgia election official said that a technical glitch that halted voting in the two counties was caused by a vendor uploading an update to their election machines the night before the election, according to a report by Politico. [SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)]

Furthermore, she said that to fix the issue, Dominion sent three technicians on Election Day, who traveled to each precinct in her county to make a second software update to the poll books. [SOURCE: [Georgia election official: Machine glitch caused by last...](#)]

Voters were unable to cast machine ballots for a couple of hours in Morgan and Spalding counties after the electronic devices crashed, state officials said. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

SGT Report is the corporate propaganda antidote. [SOURCE: [DOMINION: The 'Glitchy' Voting System That's Causing...](#)]

A great show is being played out on the national stage right now, and the Democrats drastically overplayed their hand and cheated because they are TERRIFIED of Trump winning a second term. [SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)]

Officials with Antrim County posted updated results showing President Trump won the county with 9,783 votes making up 56.46% of ballots cast. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

Gwinnett County said on Wednesday it was working with Dominion Voting Systems technicians to revisit the batches that it said were "added to the Election Night totals without being fully adjudicated." [SOURCE: [Tech company says its software isn't to blame for ballot...](#)]

Dominion is used in MI where votes were switched from Trump to Biden. [...] Ridley said that a representative from the two companies called her after poll workers began having problems with the equipment Tuesday morning and said the problem was due to an upload to the machines by one of their technicians overnight. [SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)]

Georgia Republicans say they have run into obstacles in their effort to review video footage of absentee ballot drop boxes in Gwinnett County. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

The companies “uploaded something last night, which is not normal, and it caused a glitch,” said Marcia Ridley, elections supervisor at Spalding County Board of Election. [...] I’ve never seen them update anything the day before the election,” said Marcia Ridley, elections supervisor at Spalding County Board of Election. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

"Gwinnett County has completed its re-adjudication of the absentee ballots that were affected by Election Night reporting issues and will continue to tabulate ballots on Friday morning," the county said on its website. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

We thought we could weather the storm, but the so-called "surge" or "2nd-wave" that mainstream media and Democrats are pushing has put our prospects in jeopardy. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

Jennifer Doran, elections director for the Morgan County Board of Elections and Registration, said the issue was with how the KnowInk poll books encode a voter access card that is used with the Dominion voting machines. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

Massive voter fraud may be afoot. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

But what we do at NOQ Report to deliver the truth and fight the progressive mainstream media narrative that has plagued this nation is too important for me to sacrifice it for the sake of wealth. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

As for Georgia, the state reportedly implemented Dominion Voting Systems, as well as KnowInk — which makes electronic poll books to sign in voters — in every county for the first time this year. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

"Re Gwinnett - There is no evidence of any system software problem," said Kay Stimson, Dominion Voting Systems vice president of government affairs, in an email. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

Rep. Paul Gosar (R-AZ) is calling on Arizona officials to promptly “investigate the accuracy and reliability of the Dominion ballot software” following reports of glitches in other states that are using the same software. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

Dominion, which prepares the poll books for counties before elections, “uploaded something last night, which is not normal, and it caused a glitch,” Marcia Ridley, the elections supervisor at the Spalding County Board of Elections, told POLITICO on Election Day. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

The Georgia Republican Party also posted a screenshot on Twitter of the estimated cost of retrieving the video footage in Gwinnett County. [...] The Board of Registrations and Elections made the decision then to push the batches in order to provide the best representation of votes in Gwinnett County, knowing the ballots would have to go through re-adjudication and that the results would change." [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

State election officials and the vendor that oversees the equipment acknowledged a problem occurred but have disputed the county election supervisor’s explanation, saying no such last-minute update had occurred. [...] The problem prompted a judge to extend voting hours. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

Dominion Voting Systems told The Washington Times that no evidence of a software problem exists. [...] The county said the adjudication process would begin Thursday and estimated that it would take "about three days to complete." [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

In response to the delays, Superior Court Judge W. Fletcher Sams extended voting until 11 p.m. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

In response to the problem, Superior Court Judge W. Fletcher Sams extended voting hours. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

Jennifer Doran, elections director for the Morgan County Board of Elections and Registration, said the issue was with how the KnowInk pollbooks encode a voter access card that is used with the Dominion voting machines. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

"Because the bar codes are what’s tabulated, voters would never know that their ballots benefited another candidate," the report adds. [*SOURCE: [Researchers Question Reliability of Dominion Voting...](#)*]

Antrim County had to hand-count all of the ballots News outlets are reporting a “glitch in the software of Dominion Voting Systems equipment” when 6,000 votes

switched from Republican to Democrat in Antrim County, Michigan on Tuesday. [SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)]

Voters were unable to cast machine ballots for a couple of hours in Morgan and Spalding counties after the electronic devices crashed, state officials said. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

The real problem with DREs is that you cannot recover (vote results), even if you are lucky enough to detect that there is an error or it has been tampered with," said Marian Schneider, former president of Verified Voting. [SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)]

The president has been warning of the possibility of voter fraud in the 2020 election for months. [SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)]

Several counties in both Michigan and Georgia have reported encountering what election officials described as a "glitch" involving their voting machines during the 2020 presidential election. [SOURCE: [Researchers Question Reliability of Dominion Voting...](#)]

Like ping-pong, after Ronald Reagan won two terms as President, coincidentally a new plan was hatched. [SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)]

Officials with Antrim County posted updated results showing President Trump won the county with 9,783 votes making up 56.46% of ballots cast. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

They did so by using the newest technology, computer tabulating voting machines and strategically placed election officials and staff. [...] As unglamorous as it is, Americans must take back control of voting and the counting of the votes. [SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)]

This information is now available, but it is important to note that NBC reported in 2019 that these big voting machine companies had come under scrutiny for secrecy involving their ownership, security, oversight, and finances. [...] For those that do not know, Hammer is a software developed for the CIA designed to penetrate secure systems (like voting systems) without detection. [SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)]

Nonetheless, critics see the machines as vulnerable to hacking and noted that tinkerers at last year's DefCon hacker convention in Las Vegas were able to "hack two older ballot-marking devices" in less than eight hours. [*SOURCE: [Researchers Question Reliability of Dominion Voting...](#)*]

That report found that Dominion Voting donated between \$25,001 and \$50,000 to the Clinton Foundation, but lobbyists working for Dominion also donated to Republican Senate Majority Leader Mitch McConnell. [*SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)*]

Officials tell voters to verify their selections on a paper ballot before feeding it into an optical scanner. [*SOURCE: [Researchers Question Reliability of Dominion Voting...](#)*]

But voters in more than 300 counties and 12,000 precincts will be casting ballots using DRE technology already aging in the 1990s, when flash drives were bleeding-edge tech and Netscape Navigator was the next new thing. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

Not only that, Fox News, who recently iced out their voter base by joining the left-leaning media, reported in 2019 that someone was able to buy a "key" of the internet that gave them access to our voting machines! [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

But what we do at NOQ Report to deliver the truth and fight the progressive mainstream media narrative that has plagued this nation is too important for me to sacrifice it for the sake of wealth. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

The once truly Golden State of California boasted the best of everything: jobs, education, food, entertainment, and very high quality of life for American families. [*SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)*]

On the Clinton Foundation website, there is a "commitment to action" on the DELIAN project with none other than – Dominion Voting Systems. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

Without free and fair elections, the freedoms and liberties we Americans enjoy are dissipating into a web of corruption. [*SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)*]

According to Ballotpedia, these types of voting options are optical scan paper ballots, direct-recording electronic systems, and ballot-marking devices and systems. [...] Used along with the app “Scorecard” this could have led to a premeditated attempt to switch votes. [...] Following the 2016 Election when widespread claims of Russia “hacking the election” were being reported daily, our digital voting systems were brought to the forefront. [SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)]

This claim was based on a half-truth: a tabulation error did occur in Antrim County, but the problem was a result of a human error, and the mistake was quickly caught and corrected. [SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)]

We thought we could weather the storm, but the so-called "surge" or "2nd-wave" that mainstream media and Democrats are pushing has put our prospects in jeopardy. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

Some social media users alleged that Dominion Voting Systems had somehow rigged the election, and claimed as proof of the conspiracy the “fact” that the company was owned in part by the Clinton Foundation. [SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)]

From Defense Department shot callers to Nancy Pelosi and their lobbyists who push Congress for funding for these machines and their software to be installed in every county in the nation. [SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)]

University of Michigan computer scientist J. Alex Halderman, director of the university's Center for Computer Security and Society, showed two members of Congress in 2018 how a presidential contest won by George Washington could be flipped to Benedict Arnold. In response to the delays, Superior Court Judge W. Fletcher Sams extended voting until 11 p.m. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

New Right Network is aware of claims that a company called Avid Technology is connected to Dominion Voting Systems but has been unable to verify that connection at this time. [SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)]

The new voting system "presents serious security vulnerability and operational issues" caused by "fundamental deficits and exposure," U.S. District Judge Amy

Totenberg wrote in a recent order, in which she criticized state officials for not taking the problems more seriously. [*SOURCE: [Researchers Question Reliability of Dominion Voting...](#)*]

Some election officials could not afford to swap out their aging DREs even before COVID-19 costs for such things as absentee ballots, postage, and personal protective equipment for poll workers burned through their budgets. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

Finger-pointing began, it was the Republicans controlling the elections, then it was the Democrats, back and forth like ping-pong. [*SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)*]

"Georgia's new electronic voting system is vulnerable to cyberattacks that could undermine public confidence, create chaos at the polls or even manipulate the results on Election Day," reported the Atlanta Journal-Constitution (AJC) in October. [*SOURCE: [Researchers Question Reliability of Dominion Voting...](#)*]

In 2018, the National Academies of Sciences, Engineering, and Medicine declared that elections should be using human-readable paper ballots by this year – and voting equipment without such ballots should be removed as soon as possible. [...] It does bother me a bit," said Louisiana Secretary of State Kyle Ardoin of criticism leveled at DREs. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

The latter is one of the larger providers of election equipment and software, and they hired lobbyists to assist with the company's interactions with the U.S. Congress. [*SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)*]

And although the New Jersey governor, citing COVID-19, has created a nearly all-mail election, 19 New Jersey counties still have their DRE equipment on hand for the next contest, according to state records. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

These machines and tabulation software are all hackable. [*SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)*]

You can follow Alana Mastrangelo on Facebook and Twitter at @ARmastrangelo, on Parler at @alana, and on Instagram. [*SOURCE: [Researchers Question Reliability of Dominion Voting...](#)*]

The companies “uploaded something last night, which is not normal, and it caused a glitch,” said Marcia Ridley, elections supervisor at Spalding County Board of Election. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

There is no evidence to support these claims, which use isolated incidents to allege malfeasance. [*SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)*]

Suddenly the crown jewel, California once the bastion of conservatism, the state that gave America Ronald Reagan, was for the taking. [...] With its 55 electoral vote dominance and 53 U.S. Congressional Representatives payload, California became the winner takes all target for those willing to corrupt the crown jewel for their own means and for communism. [*SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)*]

False claims have been circulating that Dominion Voting Systems is responsible for widespread election errors. [*SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)*]

Between 2006 and 2008, reports of vote-switching DREs surfaced in New Jersey, Texas, West Virginia, Florida, Ohio and North Carolina. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

Members of the Trump campaign have called for transparency and monitoring of the ongoing vote tallies while the Biden campaign has called for "all votes to be counted." [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

Given all that we know, it would be prudent to investigate any and all claims of voting irregularities, including ones that defy statistics like Benford’s Law, to ensure a free and fair election – no matter the outcome. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

The report added that Jones is one of many experts who believe that today’s ballot-marking machines undermine the concept of keeping a paper record that can be used in audits and recounts. [*SOURCE: [Researchers Question Reliability of Dominion Voting...](#)*]

Adding to the intrigue, Dominion Voting Systems has apparent ties to Speaker of the House Nancy Pelosi, a Democrat. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

The vulnerabilities of hacking these machines have already been exposed and well documented. [SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)]

Ridley said that a representative from the two companies called her after poll workers began having problems with the equipment Tuesday morning and said the problem was due to an upload to the machines by one of their technicians overnight. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

Lack was among voters in a dozen Georgia counties reporting problems with DRE screens, including touchscreens that switched a voter's choice to a vote for another candidate. [SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)]

A fraudulent election officer with nearly unchecked authority becomes the cog in a wheel that will misappropriate public funds and cause inappropriate policies to be put into place throughout the government while they enrich themselves. [SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)]

They have products for everything election-related including building the election, voting and tabulating, tallying and reporting, and auditing the election, according to their website. [SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)]

Order Founders Blend Organic Coffee from Freedom First Coffee. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

All election systems are for the most part black boxes: proprietary software and hardware jealously guarded by the handful of companies selling them. [SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)]

In hotly contested Georgia, two counties had to extend their voting deadlines to accommodate for delays produced by a last-minute software update. [SOURCE: [Dominion Voting Systems: The company at the center of...](#)]

Either by tampering with individual voting machines or by infiltrating the state's central elections server, hackers could systematically alter the barcodes to change votes. [SOURCE: [Researchers Question Reliability of Dominion Voting...](#)]

But state reviews and court cases opening up DRE systems of all makes and models for examination have for years flagged problems. [SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)]

As news of President-elect Biden's victory spread on social media, so did unsupported claims alleging voter fraud. [*SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)*]

As more and more evidence is revealed of irregularities in voting tabulation, it is a reasonable move to request that all irregularities are examined and an audit of all votes tallied through these machines be completed. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

But according to researchers, that's a problem, as "voters could end up with printouts that accurately spell out the names of the candidates they picked, but, because of a hack, the bar codes do not reflect those choices." [*SOURCE: [Researchers Question Reliability of Dominion Voting...](#)*]

Some mistakenly believe that as long as an election system is not directly connected to the internet it is secure. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

# Investigations

We need a court order instructing every county that used Dominion election software to undergo a forensic audit immediately. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

This means that any election official across the country could accidentally or purposely fail to update the software, causing glitches that incorrectly tabulate votes. [*SOURCE: [CYBER COUP: Investigation underway – Dominion Voting...](#)*]

One of the vendors, a Denver-based Canadian Crown Agent company Dominion Voting Systems has a long history of allegation of election rigging and interference in elections of various nations, including census data theft in India and interference in US Elections of 2020. [*SOURCE: [INVESTIGATION: Did Crown Agent Dominion Voting Systems...](#)*]

No one is using a computer they purchased in the 1990s,” said Warren Stewart, senior editor and data specialist for Verified Voting, a nonprofit advocacy group tracking election systems. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

Many researchers and GOP officials are questioning the reliability of voting machines used by state and local officials in the 2020 presidential election, and concerns have mounted as information surfaces that some of the machines glitched in favor of Democratic candidate Joe Biden. [*SOURCE: [Dominion ballot software under scrutiny, as GOP officials...](#)*]

Tony Zammit, communications director for the Michigan Republican Party, told the Washington Examiner on Saturday that the GOP is working across the Wolverine State to find out if other counties experienced similar issues to Antrim County. [*SOURCE: [Republicans expand probe into Dominion Voting Systems...](#)*]

Texas Senator Ted Cruz is calling for a country-wide investigation into the voting machine software that glitched in Michigan. [*SOURCE: [CYBER COUP: Investigation underway – Dominion Voting...](#)*]

The source and ownership of the voting machines used in the elections has become an urgent issue because of real fears that hackers, whether foreign or domestic, might tamper with the mechanics of the voting system. [*SOURCE: [INVESTIGATION: Did Crown Agent Dominion Voting Systems...](#)*]

Gosar's call to action follows reports of a significant glitch in a Michigan county, which used the same software. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

They were questioned in the disappearance of 12,000 votes in Bernalillo County, New Mexico, in 2002 and 18,000 votes in Sarasota County, Florida, in 2006. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

Our team is currently reaching out to county clerks across Michigan as well as going through election results in each of the counties which use this software to see how widespread this error may be," Zammit said. [*SOURCE: [Republicans expand probe into Dominion Voting Systems...](#)*]

In Antrim county Michigan, election officials observed a software glitch that flipped a county that Trump led and handed it over to Biden. [*SOURCE: [CYBER COUP: Investigation underway – Dominion Voting...](#)*]

Toyed with by white-hat hackers and targeted for scathing reviews from secretaries of state in California and Ohio, Direct Recording Electronic voting systems, or DREs, have startled Illinois voters by flashing the word "Republican" at the top of a ballot and forgotten what day it was in South Carolina. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

Since then, we have now discovered that 47 counties used this same software in the same capacity," she continued. [...] Other key battleground states, including Georgia, have used this software, Dominion Voting Systems, and have experienced issues. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

Even more, the software could contain code that intentionally adds votes for a select candidate. [*SOURCE: [CYBER COUP: Investigation underway – Dominion Voting...](#)*]

A so-called computer "glitch" in the voting machines flipping votes during the 2020 US Elections has caused a major controversy. [*SOURCE: [INVESTIGATION: Did Crown Agent Dominion Voting Systems...](#)*]

The software, Dominion Voting Systems, has been used in other parts of the country as well. [*SOURCE: [CYBER COUP: Investigation underway – Dominion Voting...](#)*]

The use of the machines operated by Dominion Voting Systems, as well as Election Systems, register "votes in bar codes that the human eye cannot decipher," according

to a story written by the Associated Press in February. [...] Georgia implemented the Dominion Voting System this year and the Atlanta Journal Constitution warned in October that the system was open to cyber attacks and hacking. [*SOURCE: [Dominion ballot software under scrutiny, as GOP officials...](#)*]

Millions of voters going to the polls Tuesday will cast their ballots on machines blasted as unreliable and inaccurate for two decades by computer scientists from Princeton University to Lawrence Livermore National Laboratory. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

If all this wasn't enough, in Antrim County, ballots were counted for Democrats that were meant for Republicans, causing a 6,000 vote swing against our candidates," Michigan Republican Party chairwoman Laura Cox said in a Friday presser. [...] Dominion is used in MI where votes were switched from Trump to Biden. [...] This glitch, in Antrim County, which officials caught on Wednesday, caused 6,000 ballots that were supposed to go to Republicans to instead go to Democrats. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

Michigan Republican Party Chairwoman Laura Cox claimed during a Friday news conference that 47 of Michigan's 83 counties "used this same software in the same capacity" as in Antrim County, where the temporary issue occurred. [*SOURCE: [Republicans expand probe into Dominion Voting Systems...](#)*]

A technology glitch that halted voting in two Georgia counties on Tuesday morning was caused by a vendor uploading an update to their election machines the night before, a county election supervisor said. [*SOURCE: [INVESTIGATION: Did Crown Agent Dominion Voting Systems...](#)*]

A great show is being played out on the national stage right now, and the Democrats drastically overplayed their hand and cheated because they are TERRIFIED of Trump winning a second term. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

In Michigan roughly 6,000 votes in one district that were meant for President Donald Trump, were given to former Vice President Joe Biden, the Democratic nominee, whose been named the presumptive President-Elect by main stream media outlets, including Fox News. [*SOURCE: [Dominion ballot software under scrutiny, as GOP officials...](#)*]

A Georgia election official said that a technical glitch that halted voting in the two counties was caused by a vendor uploading an update to their election machines the

night before the election, according to a report by Politico. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

The Dominion Voting Systems, which has been used in multiple states where fraud has been alleged in the 2020 U.S. Election, was rejected three times by data communications experts from the Texas Secretary of State and Attorney General's Office for failing to meet basic security standards. [*SOURCE: [INVESTIGATION: Did Crown Agent Dominion Voting Systems...](#)*]

The state party has said the election results in Detroit might be compromised because it claims that absentee ballots were tabulated improperly. [*SOURCE: [Republicans expand probe into Dominion Voting Systems...](#)*]

But voters in more than 300 counties and 12,000 precincts will be casting ballots using DRE technology already aging in the 1990s, when flash drives were bleeding-edge tech and Netscape Navigator was the next new thing. [*SOURCE: [Will your vote be counted? Experts warn of unreliable...](#)*]

If Biden wanted to "unite the country," he would be joining President Trump in the voter fraud investigation, not trying to push forward without adhering to the constitutional requirements involved in a Presidential election. [*SOURCE: [CYBER COUP: Investigation underway – Dominion Voting...](#)*]

A failure to update software caused a glitch in one Michigan county, resulting in 6,000 votes erroneously being tabulated for Joe Biden rather than President Trump. [*SOURCE: [Republicans expand probe into Dominion Voting Systems...](#)*]

I am calling on @dougducey to call a special session of the AZ Legislature under Article IV of our state constitution to investigate the accuracy and reliability of the Dominion ballot software and its impact on our general election. [*SOURCE: [Dominion ballot software under scrutiny, as GOP officials...](#)*]

Another 47 Michigan counties used the software. [*SOURCE: [CYBER COUP: Investigation underway – Dominion Voting...](#)*]

If there is a glitch that's built into the software system, it'll be shown and it's easy to define that," Republican Rep. Paul Gosar of Arizona, who has helped lead the charge for the Trump campaign election disputes in the state, told the Epoch Times. [*SOURCE: [Republicans expand probe into Dominion Voting Systems...](#)*]

Senator Cruz wants a more thorough investigation into the software, to rule out the possibility of vote tabulation issues that are built into the software.

[SOURCE: [\*CYBER COUP: Investigation underway – Dominion Voting...\*](#)]

Some election officials could not afford to swap out their aging DREs even before COVID-19 costs for such things as absentee ballots, postage, and personal protective equipment for poll workers burned through their budgets. Massive voter fraud may be afoot. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

The president has been warning of the possibility of voter fraud in the 2020 election for months. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

As for Georgia, the state reportedly implemented Dominion Voting Systems, as well as KnowInk — which makes electronic poll books to sign in voters — in every county for the first time this year. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

"Re Gwinnett - There is no evidence of any system software problem," said Kay Stimson, Dominion Voting Systems vice president of government affairs, in an email. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

The companies "uploaded something last night, which is not normal, and it caused a glitch," said Marcia Ridley, elections supervisor at Spalding County Board of Election. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

"Gwinnett County has completed its re-adjudication of the absentee ballots that were affected by Election Night reporting issues and will continue to tabulate ballots on Friday morning," the county said on its website. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

I've never seen them update anything the day before the election," said Marcia Ridley, elections supervisor at Spalding County Board of Election. [...] If all this wasn't enough, in Antrim County, ballots were counted for Democrats that were meant for Republicans, causing a 6,000 vote swing against our candidates," Michigan Republican Party chairwoman Laura Cox said in a Friday presser. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

The Georgia Republican Party also posted a screenshot on Twitter of the estimated cost of retrieving the video footage in Gwinnett County. [...] The Board of Registrations and Elections made the decision then to push the batches in order to provide the best representation of votes in Gwinnett County, knowing the ballots would have to go through re-adjudication and that the results would change." [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

A great show is being played out on the national stage right now, and the Democrats drastically overplayed their hand and cheated because they are

TERRIFIED of Trump winning a second term. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

Following the 2016 Election when widespread claims of Russia “hacking the election” were being reported daily, our digital voting systems were brought to the forefront. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

Voters were unable to cast machine ballots for a couple of hours in Morgan and Spalding counties after the electronic devices crashed, state officials said. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

Dominion Voting Systems told The Washington Times that no evidence of a software problem exists. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

Rep. Paul Gosar (R-AZ) is calling on Arizona officials to promptly “investigate the accuracy and reliability of the Dominion ballot software” following reports of glitches in other states that are using the same software. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

The county said the adjudication process would begin Thursday and estimated that it would take "about three days to complete." [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

For those that do not know, Hammer is a software developed for the CIA designed to penetrate secure systems (like voting systems) without detection. [...] New Right Network is aware of claims that a company called Avid Technology is connected to Dominion Voting Systems but has been unable to verify that connection at this time. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

Jennifer Doran, elections director for the Morgan County Board of Elections and Registration, said the issue was with how the KnowInk pollbooks encode a voter access card that is used with the Dominion voting machines. [*SOURCE: [Calls Growing For Special Investigation Into "Dominion..."](#)*]

Not only that, Fox News, who recently iced out their voter base by joining the left-leaning media, reported in 2019 that someone was able to buy a “key” of the internet that gave them access to our voting machines! [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

State election officials and the vendor that oversees the equipment acknowledged a problem occurred but have disputed the county election supervisor's explanation, saying no such last-minute update had occurred. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

As more and more evidence is revealed of irregularities in voting tabulation, it is a reasonable move to request that all irregularities are examined and an audit of all votes tallied through these machines be completed. [...] On the Clinton Foundation website, there is a "commitment to action" on the DELIAN project with none other than – Dominion Voting Systems. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

A poll workers watches a voter cast her ballot on Election Day at the town hall in Taylorsville, Ga. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

"To recap where we were on election night, Gwinnett County Elections experienced a software issue in which certain batches of absentee by mail ballots that had been adjudicated were displayed as in progress but would not move over to be accepted. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

According to Ballotpedia, these types of voting options are optical scan paper ballots, direct-recording electronic systems, and ballot-marking devices and systems. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

Dominion, which prepares the poll books for counties before elections, "uploaded something last night, which is not normal, and it caused a glitch," Marcia Ridley, the elections supervisor at the Spalding County Board of Elections, told POLITICO on Election Day. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

This information is now available, but it is important to note that NBC reported in 2019 that these big voting machine companies had come under scrutiny for secrecy involving their ownership, security, oversight, and finances. [...] Used along with the app "Scorecard" this could have led to a premeditated attempt to switch votes. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

That glitch prevented poll workers from using the poll books to program smart cards that the voters insert into the voting machines. [...] The problem prompted a judge to extend voting hours. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

Gwinnett should extend that lead considerably," tweeted Dave Wasserman, House editor of the Cook Political Report. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

Given all that we know, it would be prudent to investigate any and all claims of voting irregularities, including ones that defy statistics like Benford's Law, to ensure a free and fair election – no matter the outcome. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

Gabriel Sterling, the voting system implementation manager in the Georgia secretary of state's office, later disputed that account, telling reporters on Nov. 9 that the log files for the poll books show that the last update to them before the election had been made on Oct. 31. [*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

Democratic presidential nominee Joseph R. Biden took the lead in Georgia's election on Friday morning and Gwinnett County votes are expected to contribute to the margin of victory for whichever presidential candidate wins Georgia. [*SOURCE: [Tech company says its software isn't to blame for ballot...](#)*]

The vulnerabilities of hacking these machines have already been exposed and well documented. [...] They have products for everything election-related including building the election, voting and tabulating, tallying and reporting, and auditing the election, according to their website. [*SOURCE: [Dominion Voting Systems, Hammer and Scorecard, and the US...](#)*]

In response to the problem, Superior Court Judge W. Fletcher Sam's extended voting hours. [...] The counties devised a workaround in some cases by having poll managers use their own card and a code to initialize the voting machine for each voter.

[*SOURCE: [Georgia election official: Machine glitch caused by last...](#)*]

## Fraud

Dominion Voting Systems, which claims to work with 1300 voting jurisdictions including nine of the 20 largest counties in the nation, produced the software used in Michigan that erroneously gave Democratic candidate Joe Biden a 3,000 vote

advantage in Antrim County. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

The source and ownership of the voting machines used in the elections has become an urgent issue because of real fears that hackers, whether foreign or domestic, might tamper with the mechanics of the voting system. [*SOURCE: [INVESTIGATION: Did Crown Agent Dominion Voting Systems...](#)*]

On Nov. 7, 2020, the Associated Press, the New York Times, Fox News, and several other major news outlets called the 2020 presidential election and projected that Joe Biden and Kamala Harris had defeated U.S. President Donald Trump and Vice President Mike Pence. [*SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)*]

One of the vendors, a Denver-based Canadian Crown Agent company Dominion Voting Systems has a long history of allegation of election rigging and interference in elections of various nations, including census data theft in India and interference in US Elections of 2020. [*SOURCE: [INVESTIGATION: Did Crown Agent Dominion Voting Systems...](#)*]

If you care about Michigan, please support our work. [*SOURCE: [Human error, Dominion voting equipment fuel false fraud...](#)*]

Many of these claims were centered around Dominion Voting Systems, a company that sells voting machines and software in the United States and Canada. [*SOURCE: [RUMOR ALERT: Dominion Voting Systems Fraud Claims](#)*]

... the clerk accidentally did not update the software used to collect voting machine data and report unofficial results," the statement read. [...] "In order to report unofficial results, county clerks use election management system software to combine the electronic totals from tabulators and submit a report of unofficial results. [*SOURCE: [Paper Warned About the Software Company at Center of...](#)*]

The Republican clerk of rural Antrim County in northern Michigan says a glitch in vote totals was fixed by a "minor correction" and is not the stuff of conspiracy. [*SOURCE: [Human error, Dominion voting equipment fuel false fraud...](#)*]

A so-called computer "glitch" in the voting machines flipping votes during the 2020 US Elections has caused a major controversy. [*SOURCE: [INVESTIGATION: Did Crown Agent Dominion Voting Systems...](#)*]

Key electoral races could be won, by the persons running the elections offices, for local races, and more by those controlling the voting machines and the software that ran it all. [*SOURCE: [Dominion Voting Systems Leads to Voter Fraud - NRN • New...](#)*]

The same company that reported glitches with software updates in contested polling locations in Georgia is also behind the software glitch that seemingly reversed 5,500 votes in a county in Michigan. [*SOURCE: [Dominion Voting Systems: The company at the center of...](#)*]

There are now issues arising in Georgia in Spalding and Morgan Counties after it was revealed that a software update Monday night caused voting machines to crash on Election Day. [...] "The erroneous reporting of unofficial results from Antrim county was a result of accidental error on the part of the Antrim County Clerk.
